

# Return to Cricket

## Phase 3 Guidance

Valid from 10<sup>th</sup> July 2020

---

Following the announcement on 9<sup>th</sup> July by the Scottish Government that Phase 3 of the route map for cricket will commence on 10<sup>th</sup> July. This will allow larger groups of adults and youths to train and exercise in a formal setting.

The key changes to this phase are:

### Adults

- Up to **15** individuals from no more than **five** households can take part in outdoor cricket activity
- This remains subject to physical distancing measures at all times
- Non-professional adult contact sport will not resume before the 31<sup>st</sup> July

### Children and Young People

- **From 13<sup>th</sup> July** - Up to **ten** U12's from different households may take part in a group activity with no requirement for social distancing
- **From 13<sup>th</sup> July** - Up to **ten** 12 to 17 year olds from different households may take part in a group activity with no requirement for social distancing, however they must comply with the general population guidance (including social distance etc) before and after the activity.

### Coaches

- Coaches should not deliver training to more than **14** people from **four** households (or extended households) at any one time or provide coaching to more than **four** households (or extended households) per day, unless coaching children and young people (see below)
- Coaches can deliver training to children and young people on more than one occasion per day
- This remains subject to physical distancing measures at all times

### Additional Advice for Children & Young Peoples Activity

- Groups sizes can include one qualified coach.
- Coaches are still required to exercise social distancing practices
- All groups are to be self-sufficient e.g. a coach cannot oversee two separate groups.
- Parents should drop off and collect participants via a protocol that maintains social distancing.

Inspiring Scotland to choose cricket

---

- For younger age groups, plastic equipment should be used and should be disinfected at the end of each session.
